

```
class Solution {  
    public int missingNumber(int[] nums) {  
        int len = nums.length, res = 0;  
        for (int i = 1; i <= len; i++) {  
            res ^= i;  
            res ^= nums[i-1];  
        }  
        return res;  
    }  
}
```
